HALLIGAN TOOLS

Our Halligan Tools are used by fire & rescue personnel for gaining entry into buildings, vehicles and other locked enclosures.

The working ends of this tool will perform a diversity of tasks including prying, pounding, and puncturing. The tubular steel handle reduces the overall weight while enhancing leverage, control and balance during use.

The material used as well as the manufacturing process involved are the best available and are backed with a full lifetime guarantee.

Halligan Tool features:

- Heat Treated Stainless Steel Heads
- Commercial gas valve shut-off slot
- 3/4" Drive for our ZT79 Hydrant Socket (sold separately)
- Unique hammer head feature for battering or use as flat wedge impact point
- Lightweight handle with ribbed urethane grip.
- Flat Wedge for door breaching; both structure & vehicle. Miscellaneous lifting and prying
- Pry foot has high arch fulcrum point for increased lifting & prying force
- Pointed tang for prying, digging, pulling, puncturing, lock hasp removal, lifting, security screen removal, etc.

Alloy Entry Tool features:

- Heat Treated 4140 Steel
- One-piece construction with powder-coat finish
- Knurled grip handle
- Dependable and affordable
